

liberating the entrepreneurial spirit for good™

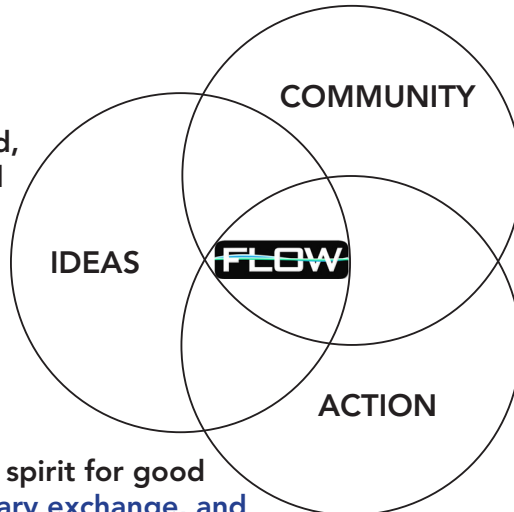

FLOW is an emerging movement dedicated to liberating the entrepreneurial spirit for good and directing it towards creating sustainable peace, prosperity, and happiness for all in our lifetime.

The FLOW Movement reflects a FLOW Worldview, integrating appreciation for economic freedom, voluntary exchange, individual initiative, combined with social and environmental consciousness, and embodies FLOW Principles, which include commitments to human flourishing, non-violence, diversity, and radical tolerance.

FLOW operates at the intersection of IDEAS, COMMUNITY, & ACTION.

### IDEAS

- FLOW exists to advance an idealistic vision of a better world, emerging out of entrepreneurial initiative.
- FLOW articulates and catalyzes creative, constructive dialogue around ideas; specifically, around core FLOW ideas including:
  - Liberating the entrepreneurial spirit for good
  - The power of freedom, voluntary exchange, and individual initiative
  - The imperative of social responsibility, stewardship of the commons, and a commitment to human flourishing

### COMMUNITY

- FLOW Community brings like-minded people together to explore FLOW-related ideas, celebrate inspiring projects, share resources, make connections, support each others' entrepreneurial initiatives, and advance the FLOW vision in their local community and beyond.

### ACTION

- FLOW Actions:
  - Point to examples of FLOW Ideas in Action
  - Inspire, catalyze, and facilitate other FLOW related action
  - Connect people with resources and opportunities to support action
- FLOW programs bring ideas to life to engage people with FLOW-related Ideas, Community and Action. Current FLOW programs include *Peace Through Commerce*, *Conscious Capitalism*, and others in development.
